603/862-2226

DURHAM, NH – The Affordable Care Act (ACA) remains unpopular with Granite Staters. New Hampshire residents believe health care costs will increase under the ACA.

These findings are based on the latest **WMUR Granite State Poll**,\* conducted by the University of New Hampshire Survey Center. Five hundred and eighty-four (584) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between January 21 and January 26, 2014. The margin of sampling error for the survey is +/- 4.1 percent.

#### Health Care Reform

Despite repairing many of the problems prospective buyers experienced with the Affordable Care Act web site last fall, the law is even more unpopular with Granite Staters. In the most recent Granite State Poll, only 34% of New Hampshire adults favor the legislation, 53% oppose it, and 13% are neutral or don't know enough about it to say. While it has never been popular, opposition to the ACA has increased nine percentage points since the summer.

Favor / Oppose Health Care Reform Legislation

\* We ask that this copyrighted information be referred to as *the Granite State Poll*, sponsored by WMUR-TV, and conducted by the University of New Hampshire Survey Center.

The Affordable Care Act remains popular among Democrats (65% favor), but remains very unpopular among both Independents (30%) and Republicans (7%).

#### Effect of the Health Care Law

When asked if the health care act has helped or hurt their family so far, most Granite Staters (67%) say the act has had no effect on their family, 10% say the act has helped, 22% say it is has hurt, and 2% are unsure. As with most questions about the healthcare law there is a partisan divide – 17% of Democrats say they law has helped while 32% of Republicans say the law has hurt.

Looking long term, most Granite Staters think their family will be worse off or about the same under the ACA. Only 18% think they will be better off, 36% think they will be worse off, 38% think it won't make much difference, and 7% are unsure. There is a significant partisan divide on this issue as 60% of Republicans think they will be worse off compared to just 16% of Democrats.

A significant reason people are opposed to the ACA is that they think health care will be more expensive under the ACA. Three in five (60%) New Hampshire residents believe that their medical costs will increase, only 6% think costs will decrease, 26% think they will remain the same, and 8% are unsure. This question also has a partisan split—majorities of Republicans (75%) and Independents (66%) say their costs will increase, but even 42% of Democrats believe their costs will go up.

## Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center. Five hundred and eighty-four (584) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between January 21 and January 26, 2014. The margin of sampling error for the survey is +/- 4.1 percent.

The data have been weighted to adjust for numbers of adults and telephone lines within households, respondent sex, age, and region of the state. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response.

### Favor / Oppose Health Care Reform Legislation Passed in Congress

“Let me ask you a question about healthcare. The U.S. House and Senate passed legislation in March of 2010 that will overhaul the nation’s health care system. Based on what you have seen or heard, do you favor or oppose the health care legislation that was passed in Congress, or don’t you have an opinion?”

(ASKED IN FEB ‘10) “Let me ask you a question about healthcare. The U.S. House and Senate have just passed legislation that would overhaul the nation’s health care system. Based on what you have seen or heard, do you favor or oppose the health care legislation that is going through Congress, or don’t you have an opinion?”
